In addition, he is the Senior Fellow of the ChildTrauma Academy (www.ChildTrauma.org), a Houston-based organization dedicated to research and education on child maltreatment. Book Signing by Dr. Perry: *Born for Love: Why Empathy Is Essential — and Endangered* (2010). Dr. Bruce D. Perry and journalist Maia Szalavitz argue that empathy, the ability to recognize and share the feelings of others, is a crucial human quality that underlies much more than love, friendship and parenting. Through compelling personal stories and wide-ranging research, they explore how empathy affects everything from emotional depression to the Great Recession, from physical health to mental health, from our ability to love to criminal behavior and even the rise and fall of societies.
